Education

Toyota Technological Institute at Chicago (TTIC)

Starting September 2026

Ph.D. in Computer Science (Incoming)

- Supervised by [Prof. Yossi Gandelsman](#)

Bilkent University

July 2023 – January 2026

M.S. in Computer Engineering

- Supervised by [Prof. Aysegul Dundar](#)
- Recipient of a **Departmental Scholarship**

Bilkent University

July 2019 – June 2023

B.Sc. in Computer Engineering

Publications

- **BeyondMasks: Evaluating Causal and Physical Consistency in Video Object Removal.**
Yigit Ekin, Enes Sanli, Aykut Erdem, Erkut Erdem, Aysegul Dundar
ECCV 2026. [Project Page](#)
- **The Unreasonable Effectiveness of Text Embedding Interpolation for Continuous Image Steering.**
Yigit Ekin, Yossi Gandelsman
In Submission [Project Page](#)
- **RoPECraft: Training-Free Motion Transfer with Trajectory-Guided RoPE Optimization on Diffusion Transformers.**
Ahmet Berke Gokmen*, **Yigit Ekin***, Bahri Batuhan Bilecen*, Aysegul Dundar
**Equal contribution*
NeurIPS 2025. [Project Page](#)
- **CLIPAway: Harmonizing Focused Embeddings for Removing Objects via Diffusion Models.**
Yigit Ekin, Ahmet Burak Yildirim, Erdem Eren Caglar, Aykut Erdem, Erkut Erdem, Aysegul Dundar
NeurIPS 2024. [Project Page](#)
- **MixGAN: Dual Path StyleGAN Fusion for Diverse and Editable Inpainting.**
Mustafa Utku Aydogdu, Ahmet Burak Yildirim, **Yigit Ekin**, Aysegul Dundar
In Submission

Research Experience

Research Intern, Reve AI

February 2026 – August 2026

- Designed and conducted **exploratory experiments** on internal **LLM and VLM variants**, evaluating model quality across different **training configurations**.
- Implemented **speculative-decoding training pipeline** for internal models
- Curated **million-scale multimodal and text datasets** for **LLM/VLM pretraining** and **supervised fine-tuning**.
- Investigated **data-mixture design** and **fine-tuning strategies** for multimodal language models, with a focus on improving **multimodal capabilities** while preserving **core language performance**.

Academic Service

Teaching Assistant, Bilkent University

2023 – 2025

- **CS 224: Computer Organization** — Spring 2024 and Spring 2025
- **CS 484: Introduction to Computer Vision** — Fall 2024
- **CS 101: Algorithms and Programming I** — Fall 2023
- Received the **Best Teaching Assistant Award** in 2025.

Reviewer, NeurIPS

2025, 2026
